Question: What are the benefits of the Apple Certification Programs?

Answer: Some of the benefits of Apple Certification include the following:

- Differentiate yourself and your business
- Gain recognition for technical competency
- Build credibility with clients and employers
- Increase visibility and enhance your reputation in a competitive marketplace
- Publicize your certifications on Apple's website, and connect with clients and employers
- Display your personalized certificate and a logo that distinguishes you as an Apple Certified professional

Apple Certification Programs:

Apple offers distinct and in-depth certification programs designed to create a high level of competency among Macintosh service technicians, support professionals, system administrators and users of Apple pro applications.

Pro Applications Certification

Showcase your expertise in Apple's pro applications – become an Apple Certified Pro. Level One certification attests to basic operational knowledge of the application. Level Two demonstrates knowledge of advanced features and a deeper understanding of the application. Take it one step further – get a Master Pro certification in Final Cut Studio or Logic Studio to recognize your skills with the entire product suite.

Mac OS X & Mac OS X Server Certifications

Apple offers certifications within the following tracks designed for professionals who support, architect, and administer Mac OS X and Mac OS X server solutions:

Apple Certified Support Professional (ACSP) is the perfect starting point and addresses basic Mac OS X troubleshooting. Apple Certified Technical Coordinator (ACTC) adds Mac OS X server support and troubleshooting skills to your repertoire.

Question: Where are the Final Cut Pro 100, 101 and 250 Courses?

Answer: Final Cut Pro Level One Certification is offered in the way of a choice of 5 Courses and Exams;

- Final Cut Express 101(2 Days)
- Final Cut Pro 100 (2 Days)
- Final Cut Pro 101 (3 Days)
- Final Cut Pro 200 (5 Days)
- Final Cut Pro 250 (2 Days)

..... completing any one of these exams will grant you with Final Cut Pro Level One certification. We run the FCP 200 course regularly as it is 5 days long as opposed to 2 or 3 and as such gives candidates more time to cover the material needed to pass the exam.

We are able to offer all of these certifications, however if you would like to do a course other than the FCP 200, this will be at an hourly rate as they do not run regularly.

Question: Do you offer Final Cut Express training?

Answer: Yes we do offer Final Cut Express training at an hourly rate.

Question: How do I know my seat is booked?

Answer: Your seat is only booked and confirmed once full payment is received. If you are interested in booking please visit the Book Now link and we'll send you an invoice.
